

# SPRING MODULITH

## Modular Monoliths in Spring

 @habuma

 @habuma

 @habuma.bsky.social

 @habuma@fosstodon.org

<https://www.habuma.com>

# What to expect

Fewer slides...more code

Lots of live coding

Misteaks will be maid

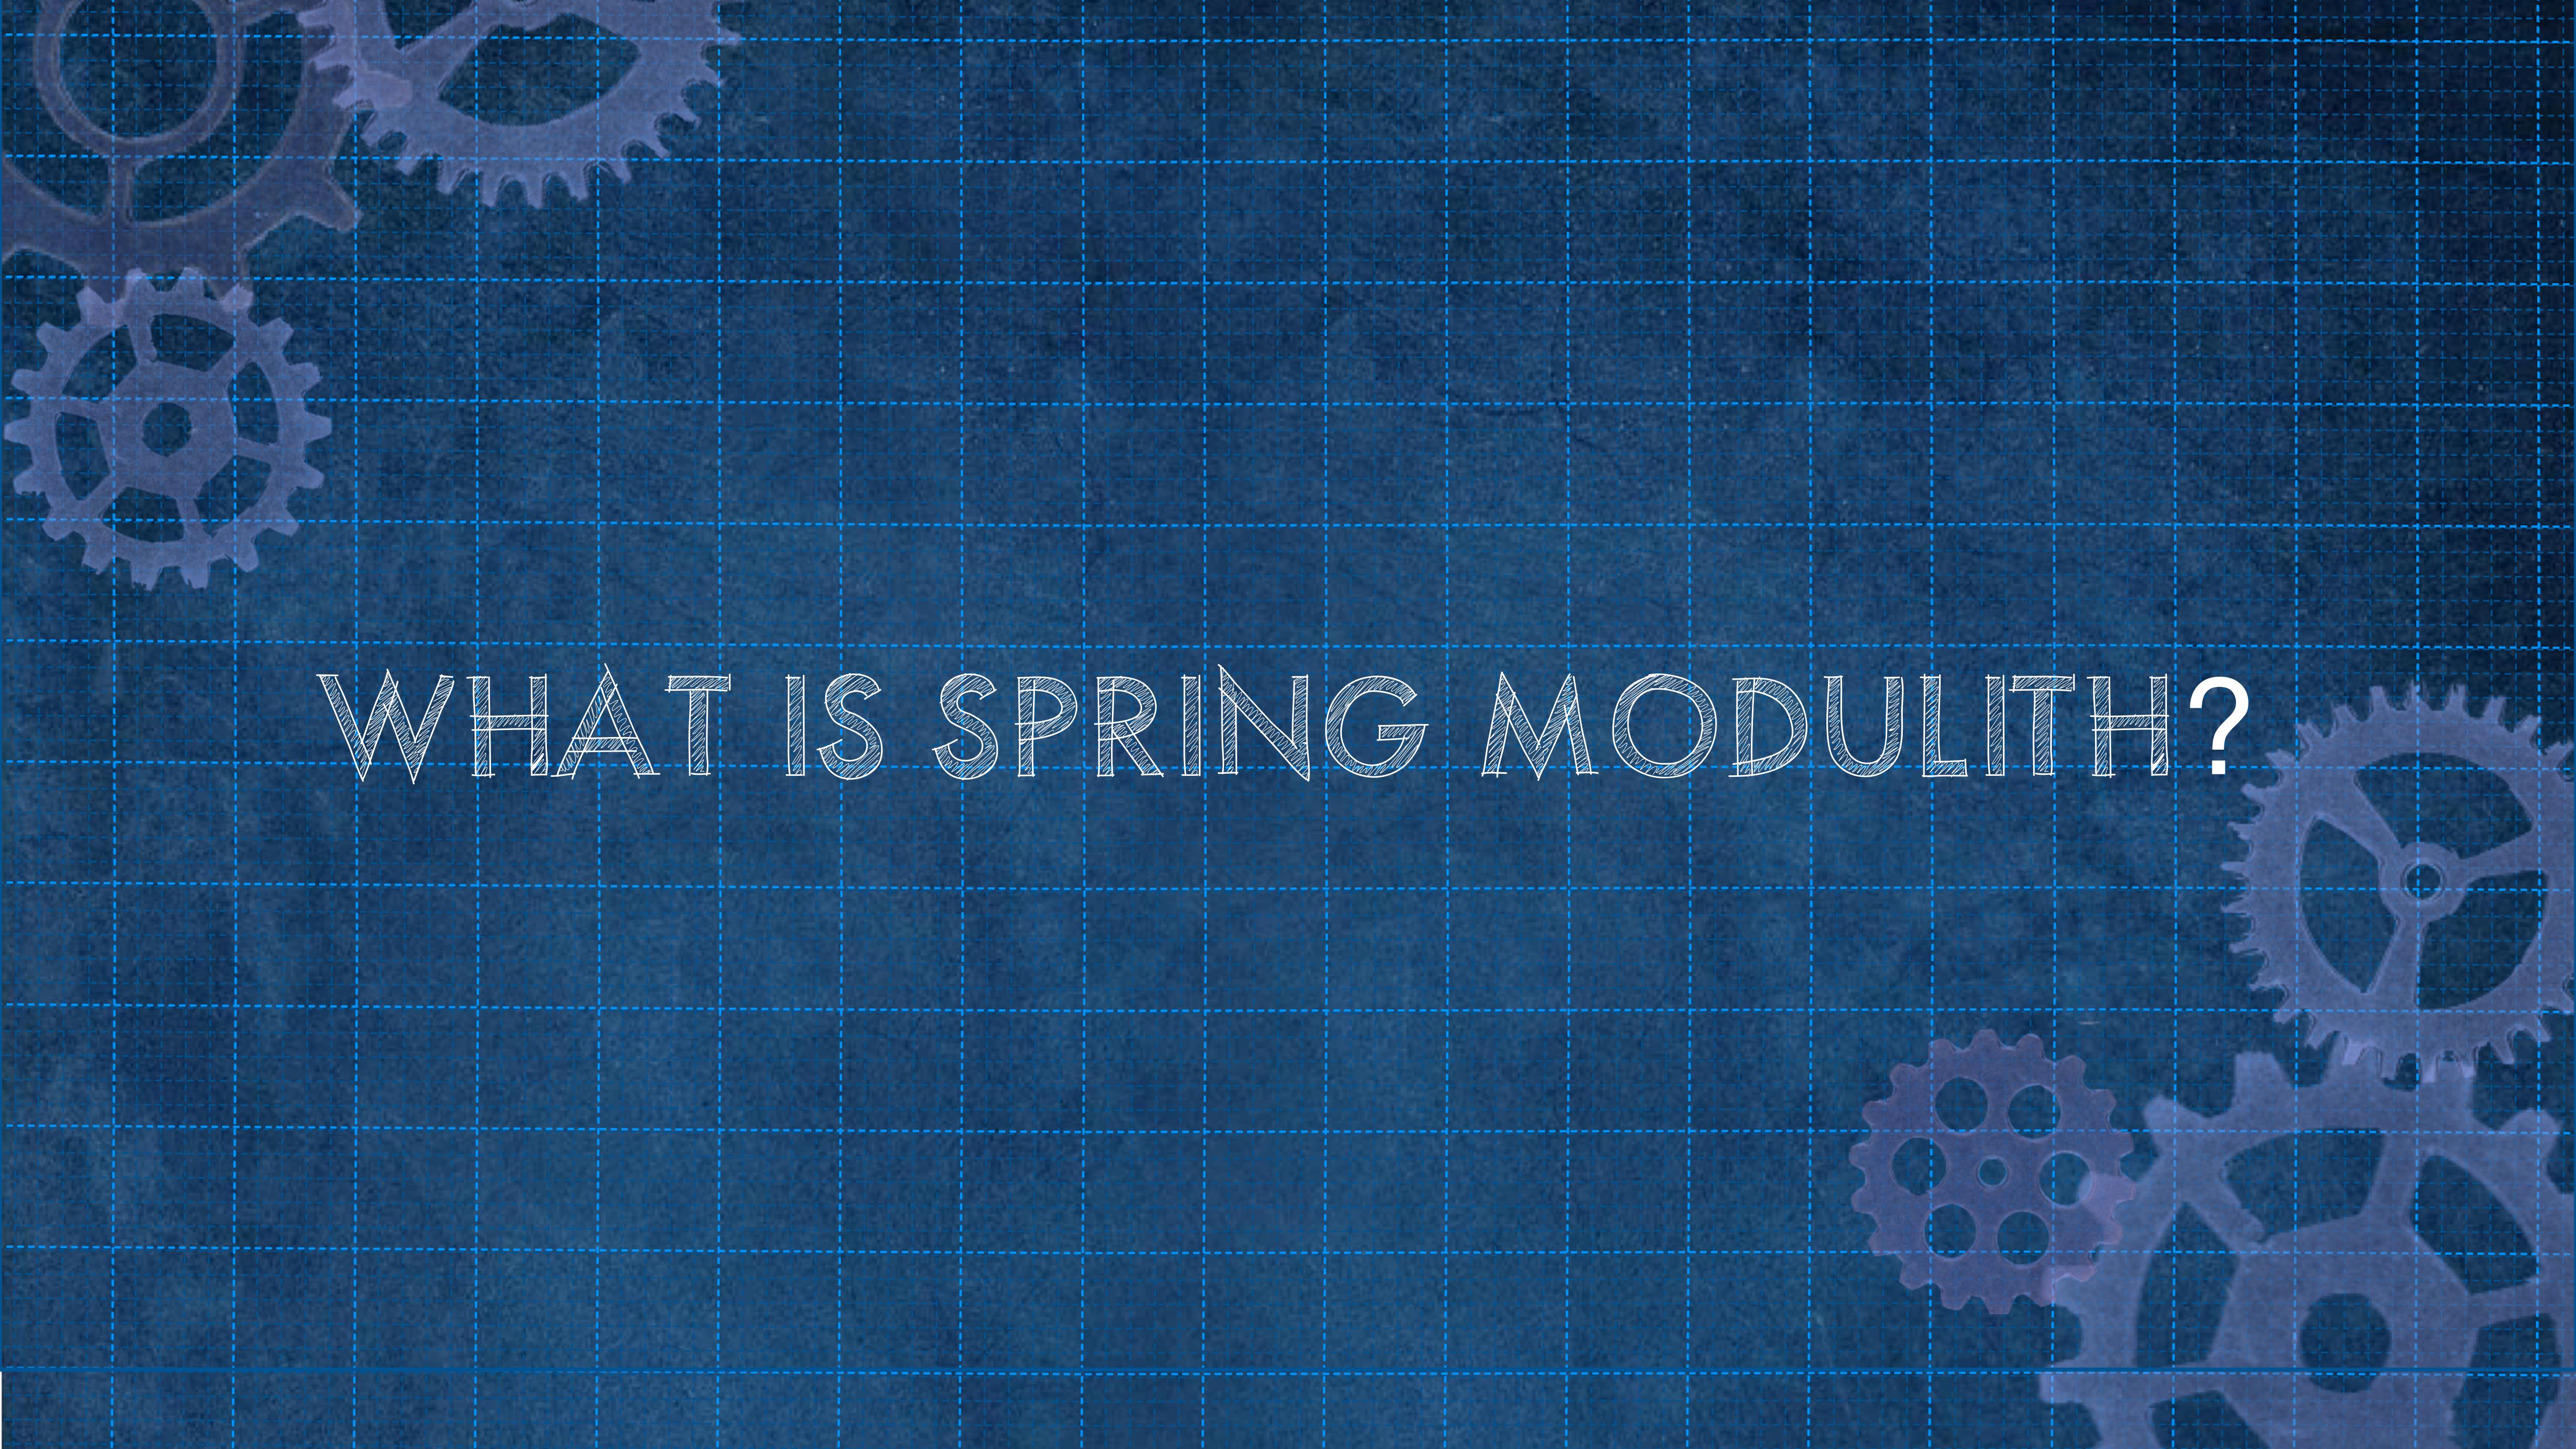

# Get the code...

Code will be available at...

<https://github.com/habuma/nfjs-samples> in *NFJS-{code}-2024*

*Airport code*

WHAT IS SPRING MODULAR?

Help to create more modular Spring applications

# Module verification

Encourages events over direct method calls

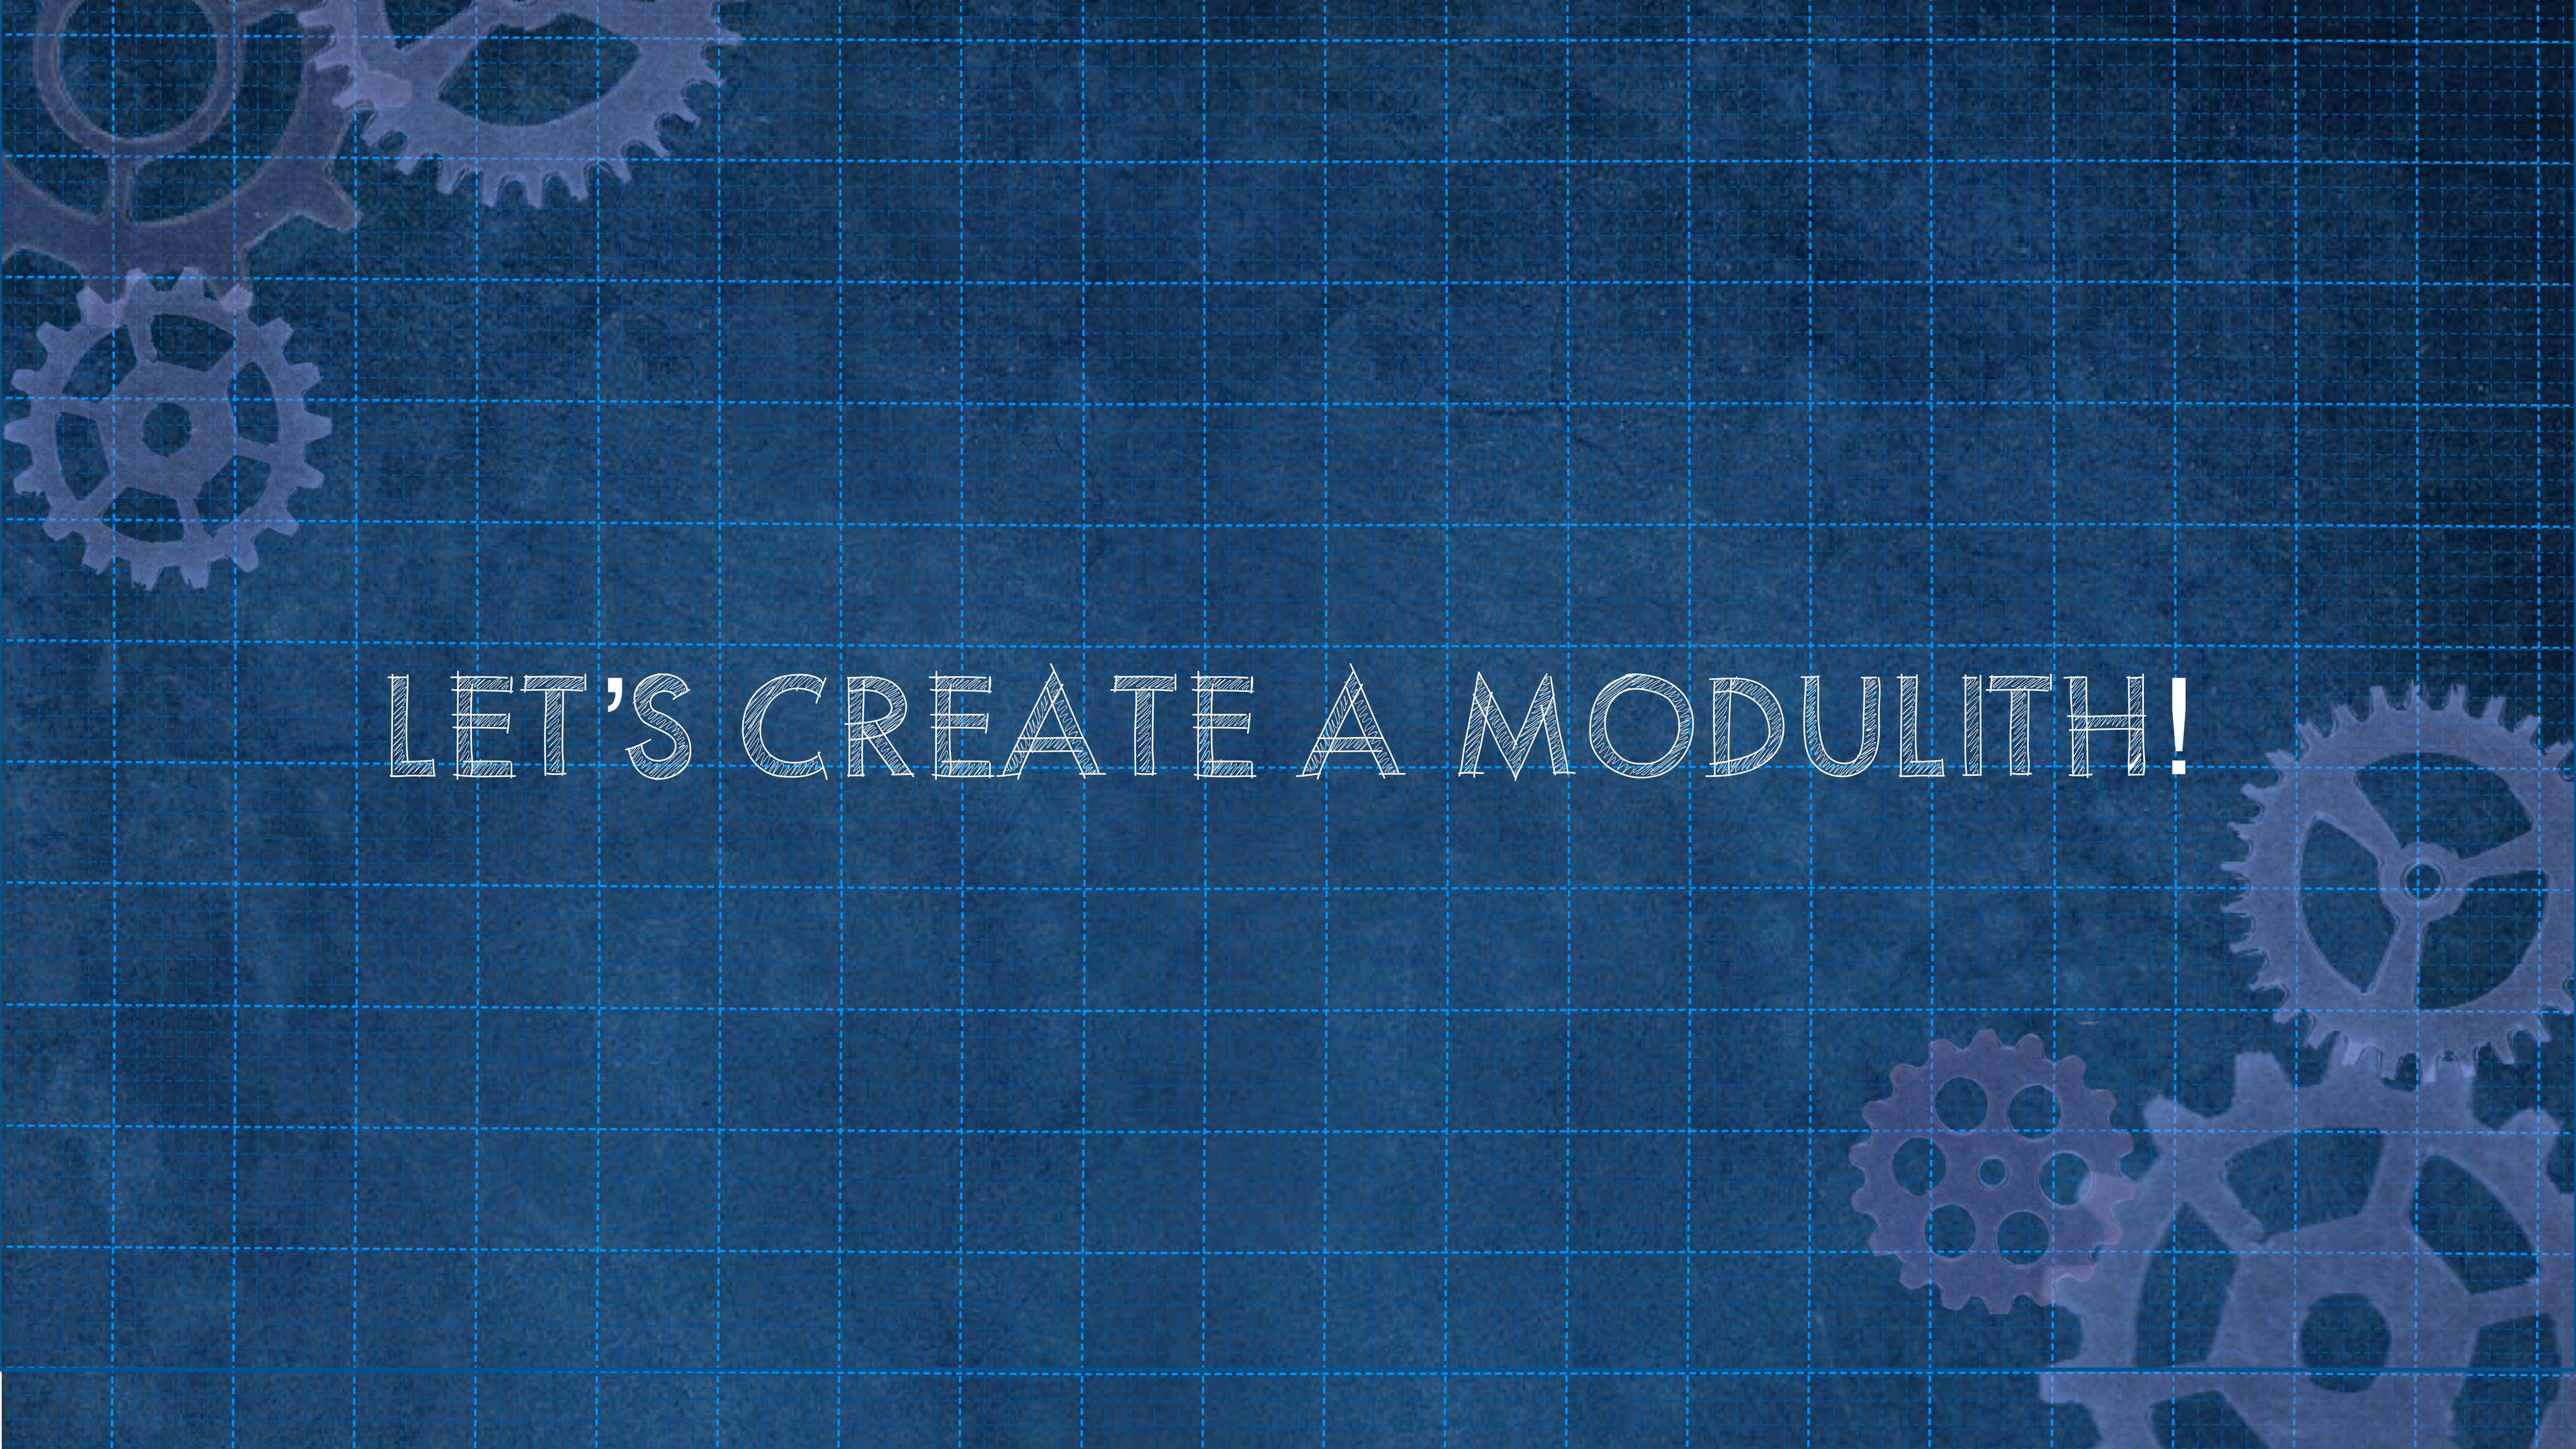

# Time-based events

# Module-level integration test support

# An Actuator endpoint

# Tracing across modules

# Document artifact generation

LET'S CREATE A MODULITH!

# THANK YOU
